TRUMAN

"The Square Deal"

"The New Freedom"

"The New Deal"

"The Fair Deal"

# *Dedication*

To Mr. Joel Hewitt Burgess

Throughout the history of the American Republic, the people have chosen from among themselves persons with outstanding social traits whom they could use in places of leadership. These men, whether village school masters or national Presidents, have played a vital part in the development of our great American tradition.

When men who are chosen for these places prove themselves to be faithful to their charges and responsibilities, it is with pride that those who follow salute them.

In this spirit, the Annual Staff dedicates the 1950 MEMENTO to our principal, who, even in his first year of service to us, has demonstrated qualities worthy of the highest calling of man-LEADERSHIP.

## *Dedication*

MR. JOEL HEWITT BURGESS

# Mid-Way Of The Century

Our grandparents ushered in the twentieth century under stars of peace that they might understandably expect to shine on a hundred years of uninterrupted progress. But our parents have lived through two world wars that still reverberate with perplexity for every nation and race.

Today we stand at the half-way mark of the century, conditioned by the aftermath of these wars, their problems unsolved. None of the questions that confront our generation has a facile answer. Too inexperienced to make comprehensive suggestions, we yet modestly and tentatively offer a few things as our contributions.

Ours is the hope of youth and the courage of the strong. Ours, the vision of the idealist joined with the determination of the resolute. We dare to believe in a better day for all mankind if the students in our school and the hundreds of thousands like us are prepared to think clearly, sacrifice as necessary, and work unremittingly for the common good.

The foundation for our endeavors has been laid in Hewitt High School. We shall repay the teachings of our alma mater by carrying her ideals over into the realm of practical and devoted citizenship. By the way that we resolve the difficulties of 1950 and the decades to follow will the twenty first century be determined. In this consciousness, we pledge the mid-century; and look forward to the stars of peace that shall shine in serenity when we, having lived our three score and ten, shall welcome in the year 2000.

"Education, the hope of youth; youth, the hope of democracy; democracy, the hope of the world.

"If you want to be chosen, make yourself choice"

## Mid-Century

As the school bells ring at the beginning of 1950 we stand at the mid point of the century, looking back to its beginning, looking forward to its end, wondering, fearing, hoping.

Change has been the dominant characteristic of the last fifty years. Ordinary living is much easier and more varied today than in 1900. Technological development has cut away the miles and brought us far closer to Europe and Asia than were New York and San Francisco fifty years ago. It has shortened working hours, and given men various means of enjoying the new leisure; it has cut the drudgery of housework and freed women to take their places as citizens in today's world. Vastly expanded facilities have brought high school education within the reach of all classes. Medical advances have added about twelve years to the average life expectancy of the high school Freshman and have done much to alleviate pain and suffering. An awakened social consciousness has made us more aware of the value of a human life and has given us new respect for the individual. But most marked of all is the changed position of our country in the world. Two world wars and the atomic bomb have ousted us off our rock of isolation, changed our smug superiority to European contacts, and elevated our country to the foremost position among all nations.

In spite of all this progress, we teenagers find much to criticize in the national and international affairs of the last half century. Soon the responsibility of the world leadership will be thrust upon us and we shall discover that to cope is a perfect feat, able to predict the result of word or deed. If we wish to see the world move toward the more perfect civilization of which we dream, we must keep alive our youthful ambitions, our enthusiasm and will to do, as we assume the responsibility of adult life and enter into full citizenship.

Let us look for a moment to the year 2000--end of a century. Although it seems lost in the future, most of us will be alive then to account for our stewardship. What will the record be? If the New Year's bells of 2000 are like the bells of 1900--ringing out the old, the feuds of rich and poor, the centuries of war, if they are to ring in the new, the thousands years of error, redress to all mankind, the valiant man with larger heart and kinder hand, we young people must begin to forge those bells now.

"In the scale of the destinies, brawn will never weigh so much as brain."

"Happiness adds and multiplies as we divide it with others."

## A Tribute To The '49 Huskies

The 1949 Huskies were a team of big hearts for their size - a mighty little team - a team that lost many games by score but not by the way they won them all. The '49 Huskies were probably the fightingest little team that ever came out of Hewitt. They had two things that make a valuable team - character - the fight and will to win. Yes, that's what made the '49 Huskies, that a forty boys who wanted to play football. And by a long way, at least the team had two of the best coaches ever to lead Hewitt - Mr. Jim O'Connell and Mr. Pat Wells. They taught the Huskies what they knew and they stood by the team - since we're good or bad. **Yes, these things made the fighting '49 Huskies.**

Let's look back over the 4 football seasons of Hewitt. The first game of the year with Mar-Har Junior was probably the biggest and most game of the year. It was the first game to be played in the new stadium. The Huskies lost, over 90-0. This was the worst game ever in football.

The second game was lost to Tarrant High School by a score of 13-0 but they were the victors in the game. The Huskies were led by a score of 14-0. The next game was the home game against the Tarrant High School. The Huskies were defeated by a score of 13-0. This was the first defeat for the Huskies in their new stadium.

At the home game, the Huskies were defeated by a score of 13-0. This was a great night for the team.

The next game of the season was Mar-Har Junior. The Huskies were defeated by a score of 13-0. For the next game, the Huskies were defeated by a score of 13-0. The Huskies were supposed to beat by at least 20 points.

The next game of the season was the Huskies' first game against the Tarrant High School. The Huskies were defeated by a score of 13-0. This was a great night for the team.

The 49 Huskies, the fightingest little team that ever came out of Hewitt - will never be forgotten.

"It takes courage to win and a good sport to lose."

# BEAUTIES

# *Miss Hewitt High School*

LOUISE WEAVER  
Representing the Senior High School

"O thou art fairer than the evening air,  
Clad in the beauty of a thousand star."

GAYLE GARRINGTON
